

# AUTOMATIC ROLL SPLICING BOOSTS OEE

# 5 WAYS TO BOOST OEE WITH AUTOMATIC ROLL SPLICING

## 1. INVOLVE BUTLER

Butler works with 50+ packaging machine builders and 100s of end users to correctly configure automatic roll splicing solutions for specific packaging applications.

## 2. TRAIN

Leverage Butler's One Point Lesson Plans (OPL's). Simple guidelines enable consistent automatic splicing performance.

## 3. MAINTAIN

Implement Butler's Clean-Inspect-Lubricate instructions (CIL's). Clearly defined minimal maintenance procedures are key to long term reliability.

## 4. PARTS

Have essential wear parts on-hand. There are only a few.

## 5. SUPPORT

Reach out to Butler's service team. We understand roll-fed packaging applications, address technical challenges quickly, and can be reached directly, 24/7.
